

# Free Multivitamins

Village Drugs offers free multivitamins to all of our customers. We also offer prescription strength multivitamins at no charge to eligible patients. Patients typically pay out of pocket for multivitamins, since they are rarely covered by insurance. This is a great opportunity to ensure your patients are getting all the vitamins and minerals their bodies need, while also saving them money.

Please fill out the attached form if you would like your patient to benefit from this program.

***Please fax completed form to 256-381-8065***
